Hope 4 Kids International

Restoring hope to kids and families around the world since 1973.

89

wells funded so far in 2026. That is a well every three days.

2026 IMPACT REPORT

Open Doors

The year the clinic opened, a training center broke ground, and a first team stepped into Cambodia.

"Behold, I have set before you an open door." Revelation 3:8

EXECUTIVE SUMMARY

Five things to know

01 **Giving is up 17% year over year.**
$4.03M through September, $590,664 ahead of 2025. August was the highest month in H4KI history at $976K, with a single-day record above $536K.

02 **The Eggum Family Medical Center is open, licensed, and staffed.**
350 patients on the two opening days, every LPA child screened, paper records replaced by an electronic system, and $90,000 in operating support secured.

03 **Water 4 Kids is ahead of pace.**
89 wells funded by August against 81 for all of 2025. Tororo Girls' School and the Masindi Center are the next large-scale projects.

04 **Uganda travel was the year's setback, and it is behind us.**
Summer teams were cancelled under a Level 4 advisory during Ebola. Uganda was declared Ebola-free in September and the November team departs as planned.

05 **Two new doors: Cambodia and ministry training.**
The first H4KI team traveled to Cambodia in September, and 33 pastors began training with TLI at a Ministry Training Center now under construction.

Two documents, one report

This board PDF carries the numbers, the scoreboard, and governance. The web hub at **h4ki.org/impact/2026** carries the stories in full. A 4-page snapshot exists for church partners and the mailing list.

Mockup for the H4KI Board. Figures are year to date through September 2026 from internal board reports and are unaudited. Year-end figures replace them in December 2026.

A LETTER FROM THE EXECUTIVE DIRECTOR

The doors opened on a Friday.

On April 10, the Eggum Family Medical Center opened its doors to the community for the first time. Over two days, about 350 patients walked up the new pavers, past the new road sign, and into a clinic with a licensed staff, an x-ray room, an ultrasound unit, and a lab. Mothers came with babies. Grandparents came who had never had a blood test. Our team worked from morning until the light gave out. I keep coming back to that weekend because it says what this whole year has been about: doors opening that were closed for a very long time.

This is my first report as Executive Director, and I do not take the responsibility lightly. God has led Hope 4 Kids International through five decades of faithful service, and 2026 has asked a lot of us. Ebola in Uganda closed the door on our summer trips there. Flooding in Nepal and a heartbreaking season for our church partners in Mexico reminded us how fragile life is for the communities we serve. And we said goodbye to Pastor Neri Francisco in Guatemala, a Hero of the Faith and a dear friend.

And still, doors kept opening. Uganda was declared Ebola-free and our November team is going home to our kids. Our first team ever landed in Cambodia. Thirty-three pastors began training at a Ministry Training Center that did not exist a year ago. August became the highest giving month in our history, and on a single day more than half a million dollars arrived from partners who believe in this work.

Every number in this report has a name behind it, and behind every name is one of you. Thank you for opening doors with us.

Angie Simon

Executive Director, Hope 4 Kids International

2026 BY THE NUMBERS

What opened this year

Every figure comes from a board report, named under each number. Year to date and unaudited until December.

89
wells funded for communities in 2026
Q3 board update, Aug 2026

350
patients served at the clinic's two-day opening camp
Medical update, May 2026

87
Brandom Vocational Skills Center graduates
Sponsorship report, May 2026

753
Walk 4 Water participants across six events
Global Engagement, Jan to May 2026

33
pastors in training at the new Ministry Training Center
Board minutes, Dec 2025

100%
of children with urgent medical needs funded
Sponsorship and Global Engagement, 2026

9.17M
meals provided through Food 4 Kids since 2015
Board minutes, Dec 2025

$4.03M
given through September, up 17% on last year
Q3 board update, Aug 2026

A well every 3 days

89 wells funded January 1 to August 31, 243 days.

A patient every 3 minutes

350 patients over two clinic days, assuming eight working hours each.

$14,755 a day

$4,028,186 given over the 273 days through September 30.

2,280 meals a day

9,169,280 meals since 2015, averaged over eleven years.

YOUR PART IN IT

The supporter side of the ledger

49+ team members traveled with us by May, with seven trips still ahead

25 new Ambassadors joined and took on a mission of their own

17 supporter-led fundraising campaigns launched for wells, buildings, and schools

61 past team members answered a survey on sharing the story

166 volunteer hours given in the sponsorship office, January to April

80+ friends filled a living room in January and funded two years of Food 4 Kids

PRIOR-YEAR COMPARISON

2025 to 2026, side by side

Where a 2025 figure did not exist, the cell says so.

MEASURE	2025	2026	NOTE
Giving through September	$3.44M	$4.03M	+17%
Wells funded by May 19	31	44	W4KI board page
Wells funded, full year vs. through August	81	89	2026 passed 2025 in August

Eggum Family Medical Center	Equipped, not yet open	Licensed, open, 350 patients at opening	
Countries with a team on the ground	7	8	Cambodia, first team in September

THE YEAR, MONTH BY MONTH

How 2026 unfolded

Ten moments, in order. Each one is a door that opened or, in June, one that closed for a season.

Jan

A living room feeds six schools

More than 80 friends raise $131,000+ for Food 4 Kids: two meal containers and two years of monthly support. A January team serves in Mexico.

Mar

World Water Day and Nepal

$109,563 funds ten wells. The Nepal team delivers 150 water filtration systems and dedicates phase 2 of Saraswati Basic School.

Apr

The clinic opens

The Eggum Family Medical Center receives its license and opens with a two-day camp for about 350 patients. The April team runs a medical outreach in Sesera.

May

A new ED, 33 pastors, two teams

Angie Simon's first board meeting as Executive Director. Pastor training begins with TLI. Teams serve in Romania and Guatemala. Union County walks for water.

Jun

Doors close in Uganda

A Level 4 advisory and travel ban during an Ebola outbreak postpone the June and July Uganda teams. Chester Methodist's youth group travels to Guatemala instead.

Jul

87 graduates

The Brandom Vocational Skills Center graduates its largest class. A Vacation Bible School week in Mexico.

Aug

The biggest month in H4KI history

$976K given, more than $536K of it in a single day. Founder's Day raises about $66,000 for the clinic. The Namibia team serves in Okombahe. 89 wells funded year to date.

Sep

Uganda is Ebola-free, Cambodia is next

The first H4KI team ever lands in Cambodia alongside the Philippines team. Irvine walks for water. The move to DonorPerfect and Givecloud nears go-live.

Nov

Going home to Uganda

The November team departs as planned. 2027 already has a waitlist.

Dec

Year-end board meeting

December 4, Anthem Civic Center. Audited figures replace the numbers in this report.

WHERE WE WORK

Eight countries, one home

Uganda

3 primary schools, a vocational center, a clinic

The Eggum Family Medical Center opened, Watson Primary gained a four-classroom block, and the Ministry Training Center broke ground.

Next: Return trip in November; Tororo Girls' School water project

Romania

Record Bible Summer Camp

Furniture and equipment went into the ASA Community Center; a sewing center is planned for 2026 improvements.

Next: Sewing center and courtyard drainage

Guatemala

273 patients seen by last year's medical team

The May team painted and raised funds for home repairs for Gustavo's family; 75 water filters are packed for the next trip.

Next: Water filters and home repairs

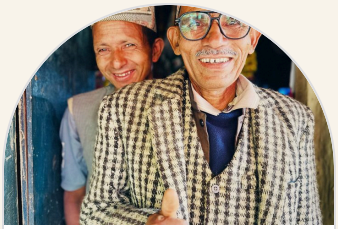

Namibia

Tanidare Soup Kitchen

Church gifts secured a place in the grid power queue and completed hot water piping at the Okombahe boarding facility.

Next: Solar water heater at Karibib; farm improvements

Nepal

150 water filtration systems delivered

Phase 2 of Saraswati Basic School was dedicated in March with We Ignite Nations, and phase 3 was funded in April.

Philippines

5 homes completed, solar power installed

Zhyran's heart surgery finally happened. A new solar system is already cutting the nursery school's operating costs.

Mexico

100 families fed through the food box drive

The church roof is fully funded and an emergency relief campaign bought a church van for partners walking through tragedy.

Cambodia

First H4KI team, 15th well

Two local partners are adding child sponsorship, and our fifteenth well was completed with the Rock Foundation.

Next: Sponsorship launch

PILLAR 1 OF 4

01 Dignity

Restoring self-worth through education, vocation, and opportunity.

A skill in the hand is a door that stays open.

Education and child sponsorship remained the spine of the work in 2026. Every student at LPA passed the national P7 exam and every Fairmont Christian student passed the S4 exam, and the Brandom Vocational Skills Center sent its largest class yet into the workforce.

87
vocational graduates in July

22
students with no sponsor given vocational funding

100%
P7 and S4 exam pass rate at our Uganda schools

60
boarding places offered by Tororo Girls' School

ONE STORY

Twenty-two students who were not on anyone's list

Funding higher education is the hardest money we raise. Sponsorship covers primary and secondary school, but a trade course or a university place needs a second yes. This year one gift covered vocational costs for 22 students who had finished school with no individual sponsor and no plan. They are now in carpentry, tailoring, catering, and mechanics courses at Brandom. In the same season a Higher Education campaign raised $28,902, enough to carry one university student for three years and cover the first year for five more.

What changed in 2026

- The new Automotive Mechanics program at the Brandom Vocational Skills Center is fully funded and a consultant is building the curriculum.
- Tororo Girls' School, one of eastern Uganda's most respected secondary schools with 2,300 girls boarding, offered 60 enrollment places at half the tuition and boarding cost in exchange for a campus water project. A formal agreement has been submitted.
- Staff who work directly with children in Uganda completed trauma and abuse care training with Mending the Soul, using an Africa-specific curriculum.
- Both new local partners in Cambodia are moving forward with child sponsorship, and the Uganda team is already enrolling next year's baby class at all three primary schools.

Looking ahead

1. Launch Automotive Mechanics as the fifth Brandom program.
2. Open sponsorship in Cambodia.
3. Finalize the Tororo Girls' School partnership and water project.

More at h4ki.org/impact/2026#dignity

PILLAR 2 OF 4

02 Health

Clean water, medical care, and daily food for children and their villages.

A clinic, a well, and a meal: three doors to a healthy childhood.

2026 is the year the Eggum Family Medical Center went from a building to a licensed, staffed, working clinic. Water 4 Kids International kept drilling, Walk 4 Water kept walking, and Food 4 Kids fed six schools and a partner ministry every month.

350
patients at the opening medical camp

175
patients at the Sesera outreach

89
wells funded in 2026, 1,352 to date

$131K+
raised in one January evening for Food 4 Kids

ONE STORY

Opening day at the Eggum Family Medical Center

The clinic received its official license this spring, and on April 10 and 11 it opened to the community with a two-day medical camp. Roughly 350 people were seen. In the weeks that followed the team completed health screenings for every child at LPA, hired a lab technician and a full-time radiographer, moved from paper to an electronic medical record so no child falls through the cracks, and started weekly radio health talks that reach across eastern Uganda and into western Kenya. One sponsored child in the Philippines, Zhyran, finally had the heart surgery he had waited almost three years for.

What changed in 2026

- Water 4 Kids International funded 89 wells by August, ahead of last year's pace, and World Water Day alone funded ten wells for villages we serve.
- Six Walk 4 Water events from January to May drew 753 participants and funded 11 wells. A walk in Lorton, Virginia later added five more.
- Large-scale campus water projects began at Tororo Girls' School and were assessed for the Masindi Center for the Handicapped. A borehole near campus now serves the villages around the clinic.
- Cambodia's fifteenth well was completed with our local partner. Nepal received 150 water filtration systems in March, and 75 more are packed for Guatemala.

Looking ahead

1. Register the clinic as an official immunization site.
2. Extend health screenings to sponsored children at every school.
3. Ship a new meal container to the Philippines hostels.

More at h4ki.org/impact/2026#health

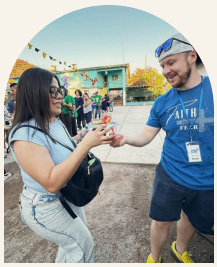

PILLAR 3 OF 4

03 Joy

Moments of connection, play, and childhood, shared with people who show up.

The joy of going, and the joy of coming back.

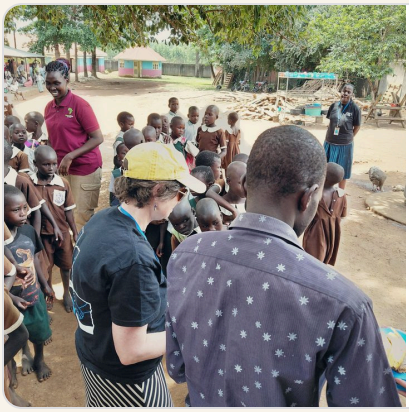

Mission teams are where supporters become family. 2026 tested that: an Ebola outbreak closed Uganda to our summer teams. It also gave us a first trip to Cambodia, a record Romania summer camp, and a November return to the kids we missed.

49+
team members by May, seven trips still to go

1st
H4KI team ever in Cambodia

$66K
raised on the first Founder's Day for the clinic

2
consecutive record years for Romania Bible Camp

ONE STORY

The trip we had to cancel, and the one we get to take

In May the U.S. State Department raised Uganda to a Level 4 advisory and imposed a travel ban during an Ebola outbreak. We have led trips through previous outbreaks, but this one was different, and with our partners we postponed the June trip with Orange Lutheran High School and then the July Uganda team. That was hard news for 49 travelers and harder for the kids waiting for them. In September Uganda was declared Ebola-free. The November team departs as planned, and 2027 already has a waitlist.

What changed in 2026

- Summer teams served in Romania, Guatemala, and Mexico, including a first trip with the youth group from Chester Methodist Church and a Vacation Bible School week in Mexico in July.
- Our first team to Cambodia traveled in September alongside the Philippines team, strengthening two new local partnerships.
- Demand outgrew supply: the May Guatemala and July Uganda trips filled fast enough that Teams built a waitlist process. Planning for 2027 includes a university medical trip and an April Dress a Girl trip.
- Founder's Day, held for the first time on Tom Eggum's 75th birthday, raised about $66,000 for Eggum Family Medical Center operations.

Looking ahead

1. Return to Uganda in November.
2. Launch the 2027 university trip with Arizona State and Grand Canyon University students.
3. Make Founder's Day an annual tradition.

More at h4ki.org/impact/2026#joy

PILLAR 4 OF 4

04 Love

The love of Jesus in action, carried by churches, partners, and neighbors.

Love builds slowly, and it builds to last.

Tom Eggum has said that training ministers fulfills the original mission. In 2026 a Ministry Training Center rose on the Uganda campus, a new Global Engagement team began multiplying partners at home, and church partners in three countries carried their communities through loss.

33
pastors in the first training cohort

13
corporate partnership programs designed

4
universities in active partnership talks

1,500+
essentials collected by one supporter's community drive

ONE STORY

Thirty-three pastors and a building that did not exist

Hope 4 Kids International began as a ministry to pastors, and this year it came full circle. In partnership with Training Leaders International, 33 Ugandan pastors began a training program in May while the Ministry Training Center was still under construction beside the new Student Worship Center. A partner church gave $50,000 toward the building. The center will serve the campus, the Adopt a Village churches, and pastors from across the region for decades.

What changed in 2026

- Our new Global Engagement department launched with a clear purpose: churches, universities, Ambassadors, and corporate partners who carry the story. It added 25 Ambassadors and 17 supporter-led campaigns in its first months.
- Partnerships advanced with Arizona State University, Grand Canyon University, St. John Fisher College, and the Scholars Academy, including a dedicated 2027 Uganda trip for college students.
- Church partners in Mexico fully funded a new church roof and, through an emergency relief campaign, a church van, while walking through a season of tragedy.
- In Namibia, church gifts moved the Tanidare Soup Kitchen into the queue for grid power and finished hot water piping at a boarding facility.

Looking ahead

1. Complete the Ministry Training Center.
2. Sign the first corporate partners.
3. Launch the Difference Maker Kit so every returning traveler can tell the story.

STEWARDSHIP

Where the money went

FINANCE REVIEW

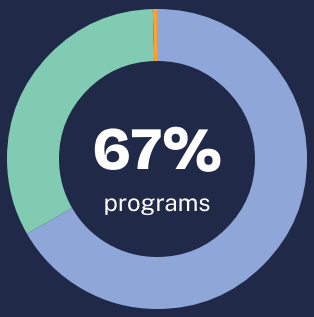

Through April, revenue was $1.93 million against a budget of $1.70 million, and the year ended April with a small surplus. Restricted gifts for Uganda projects, the medical clinic, and higher education drove the growth. Administrative costs came in $55,000 under budget and fundraising costs at less than one percent of spending. Through September, giving reached $4.03 million, about $591,000 ahead of the same point in 2025, and August was the highest giving month in the organization's history.

GOVERNANCE

Who holds the keys

CONFIRM NAMES

Hope 4 Kids International is governed by a volunteer advisory board that meets twice a year, most recently May 28 and December 4. Leadership transitioned in 2026 with Angie Simon's first year as Executive Director, following two decades with the organization.

- Angie Simon — Executive Director
- Tom Eggum — Founder and President
- Ken Jensen — Board Chair

Board actions this cycle

- December 2025: approved a $100,000 distribution from the Arizona Community Foundation reserve fund to seed the new supporter data system, now live as DonorPerfect and Givecloud.
- December 2025: approved annual January distributions from the Kathryn Hildebrand Fund and the Gianna Santiago Scholarship Fund, beginning January 2026.
- May 2026: updated fund contacts and administrators for the four Arizona Community Foundation funds.

Funds at the Arizona Community Foundation

Primary Endowment Fund	**$273,622**
Gianna Santiago Scholarship Fund	**$247,629**
Kathryn Hildebrand Fund	**$170,212**
Reserve Fund	**$36,981**
Total, March 31, 2026	**$728,444**

What did not go to plan

Summer trips to Uganda were cancelled during an Ebola outbreak, and Mission Travel income ran about $50,000 below budget through April as a result. Child Sponsorship program costs ran $117,000 over budget as we funded health checkups for every sponsored child in Uganda. We adjusted program allocations so sponsorship can carry $1 to $2 per child for wellness checkups each year, which now funds about $40,000 of clinic operations annually, and we are rebuilding the 2027 trip calendar with a waitlist system.

Looking ahead to 2027

01 **Finish the Ministry Training Center** and graduate the first cohort of 33 pastors.

02 **Open sponsorship in Cambodia** with both local partners.

03 **Make the clinic self-sustaining** through immunization registration, referral partnerships, and growing patient volume.

04 **Launch Automotive Mechanics** as the fifth program at the Brandom Vocational Skills Center.

05 **Bring water to Tororo Girls' School** and open 60 places for our sponsored girls.

06 **Give online, simply** with the move to DonorPerfect and Givecloud, Apple Pay included.
