ABOUT THIS REPORT

Program figures as reported in H4KI's May 2026 board packet and third quarter 2026 board update; giving as of that third quarter update and the Executive Director's update to the board, September 2026. Interim, unaudited finance through April 30, 2026, and March 31, 2026 for long term funds held at the Arizona Community Foundation.

This report was designed and built with AI assistance (Claude), working from H4KI's internal board reports: the May 2026 board packet, the third quarter 2026 board update and the Executive Director's update to the board, September 2026. The magazine lists sources on every spread, and the web page lists them beside its headline figures. Finance figures are interim and unaudited. Photos: H4KI 2026 trip teams and Walk 4 Water events.

Cover: Three boys hold up a handmade wire toy car with bottle cap wheels, Namibia, August 2026. **Left:** A boy shows off his chalk covered hands on a schoolyard court, Guatemala, June 2026. Photo: H4KI trip team.

FROM THE EXECUTIVE DIRECTOR

A year built with partners

In April, the Eggum Family Medical Center in Uganda opened to the community. Of everything that happened this year, it is the story I most want to tell you, because so many of you are part of what comes next.

Dear friends,

You are helping the center grow: our first Founder's Day raised about $66,000 toward its operations. You can read the center's story on pages 10 and 11.

The center was one part of the year. In Uganda, we broke ground on a Ministry Training Center to equip pastors and ministry leaders. In Nepal, together with We Ignite Nations, we dedicated the second phase of Saraswati Basic School. In Cambodia, Water 4 Kids International and a local partner reached their 15th well since the work there began.

Not everything went as we hoped. Our summer trips to Uganda did not happen. By late May, after prayerful consideration, we and a partner high school had decided to postpone the June trip, and the July trip was later canceled because of Ebola and insurance restrictions. As our third quarter update reported, Uganda has since been declared Ebola free, and our November trip is set to depart. Our team is eager to return and spend time with our Uganda staff, sponsored children, schools and projects.

Through all of it, your generosity has humbled me. August was the highest giving month in H4KI history: you gave about $976,000, including the largest single day of giving we have ever seen.

This has been a season of leadership transition for H4KI, and I am grateful to serve as your Executive Director. I do not take that trust lightly. In the year ahead, we hope to register the center as an official immunization site and welcome college students on a Uganda trip built for them. Thank you for praying, giving, going and walking. I thank God for each of you, and I look forward to another year alongside you, the children and families we serve, and our partners around the world.

With gratitude,

Angie Simon
Executive Director

2026 AT A GLANCE

Milestones from the year so far

MARCH

10 wells funded on World Water Day

You met the goal, and a matching gift covered 5 more. The story is in the water chapter, pages 8 and 9.

MARCH

A second phase for a school we support in Nepal

The story is in the education chapter, pages 12 and 13.

BY MAY

Ground broken in Uganda

Work began on a Ministry Training Center to equip pastors and ministry leaders, and on new classrooms at one of our primary schools.

AUGUST

Your generosity in August

Together, you gave about $976,000 in August, including the largest single day of giving on record: more than $536,000.

BY SEPTEMBER

A new trade, fully funded

The Automotive Mechanics story is in the education chapter, pages 12 and 13.

WATER 4 KIDS INTERNATIONAL

89 wells funded so far in 2026[1]

Supporters, walkers and field partners all had a hand in this year's wells.

For World Water Day, you met a goal of 5 wells at $52,500, a matching gift covered 5 more, and the campaign raised $109,563.

STORY

Water across Uganda and beyond

In eastern Uganda, a large scale water project is underway at a girls' secondary school that boards 2,300 girls. As reported in May, we helped the villages around H4KI's campus in Uganda with a borehole well. On the campus itself, work continues on wastewater infrastructure. In Masindi, our team assessed a school serving children with disabilities as the site for a future water project.

Outside Uganda, water filtration systems went to Nepal in March, and our water team planned to bring 75 filtration systems on the 2026 Guatemala trip. In the Philippines, we are relaunching our water program.

If you gave toward a well, walked or prayed for clean water this year, thank you.

MEDICAL CARE

The Eggum Family Medical Center opens

Licensed, newly staffed and newly equipped, the center is already partnering with hospitals and clinics in the area.

The Eggum Family Medical Center has received its official license to operate.

STORY

Open and operational

In the same month it opened, the center held a medical outreach in Sesera with our April team.

A new analyzer expands what the center can test for, and a phototherapy bed readies it for newborns who may be referred there. The center is also partnering with hospitals and clinics in the area, and radio health talks continue across eastern Uganda.

By May, a campaign for the center's operational needs had been set up, and a hospital had donated medical supplies.

About $66,000

raised on the first Founder's Day toward the center's operations

H4KI board update, third quarter 2026

EDUCATION

New classrooms in Nepal and a new trade in Uganda

Classroom blocks are rising in Uganda, a school is growing in Nepal, and a new trade is on the way.

At Brandom Vocational Skills Center, a new Automotive Mechanics program is fully funded, and a consultant is building the plan.

STORY

Learning in Uganda and Nepal

As reported in May 2026, every student at one of our primary schools in Uganda passed the national exam at the end of primary school. At Fairmont Christian, a secondary school we support, every student passed the national exam at the end of the fourth year of secondary school.

A new classroom block was completed at Watson Primary School. In Kasolo, a new classroom block is under construction for Musana Primary School, where the covered dining area is complete.

In Surkhet, Nepal, we dedicated the first phase of Saraswati Basic School in 2025. In March 2026, together with We Ignite Nations, we dedicated the second phase, and in April, funding was secured for the next: finishes, furniture and equipment.

Want to help the next class through school? You can sponsor a child at h4ki.org/sponsor.

Children are waiting for a sponsor today. You can be one.

Sponsor a child

h4ki.org/sponsor

CHILD SPONSORSHIP

Sponsorship coming to Cambodia, and a new class enrolling in Uganda

Both of our new local partners in Cambodia are moving forward with adding child sponsorship.

Your gifts to the Higher Education campaign have raised $28,902 so far, which includes covering more than the first year of university for five students.

STORY

Two campaigns for children and students

In Uganda, our sponsorship team is already enrolling next year's youngest class for our 3 primary schools.

In June and July, your gifts to the Urgent Medical Needs campaign raised $6,301 to cover all 17 children in the campaign.

A small part of each Uganda sponsorship now covers health and wellness checkups, and together those amounts provide $40,000 a year toward operations at the Eggum Family Medical Center.

Children in this report are not named, to protect their privacy.

COUNTRY BY COUNTRY

Where we serve

Each note shares recent work with local partners.

ROMANIA
Furniture and equipment were added to the ASA Community Center, and plans include a new sewing center.

NEPAL
This year's school and water work in Nepal is told in the education chapter, pages 12 and 13, and the water chapter, pages 8 and 9.

CAMBODIA
Our 15th well in Cambodia is in the water chapter, pages 8 and 9, and our new local partners there are in the child sponsorship chapter, pages 14 and 15.

PHILIPPINES
As reported in May, 5 homes were completed through our Build a House program, and a new solar power system is already reducing operating costs. We are raising funds for a new patio roof at the nursery school.

GUATEMALA
The May Guatemala trip filled quickly, one of the trips that led us to start a waitlist. Water filters for Guatemala are in the water chapter, pages 8 and 9.

MEXICO
A food box drive raised funds to feed 100 families and continue monthly support for a partner soup kitchen. The roof for a partner church, replacing one about 30 years old, is fully funded.

UGANDA
We purchased 2.5 more acres for future growth of the campus, and Bible training is underway at the Student Chapel.

NAMIBIA
Partner churches funded hot water piping at a boarding facility in Okombahe and helped secure the Tanidare Soup Kitchen's place in line for a power grid connection.

Walk 4 Water, Food 4 Kids and the people behind them

h4ki.org/ir26-you

753 people took part in 6 Walk 4 Water events from January through May, and those walks funded 11 wells.

STORY

Walk 4 Water in 2026

From January through May, you raised $115,700 through Walk 4 Water, before event costs, and one community walk brought in 3 wells on its own. Our third quarter update also reports another community walk raising funds for five wells. We are redesigning the event guide for first time hosts and exploring partnerships with possible new hosts in Salt Lake City, Utah and Destin, Florida.

At one Food 4 Kids evening in early 2026, you gave more than $100,000, enough for 2 food containers and monthly support for the next 2 years.

Partnerships are growing with four schools and colleges. Among our Guatemala trip members, two pharmacy students are developing a research project.

TEAMS IN 2026

As of May 28, we counted 49 team members so far this year. By the same date, 4 trips had been completed.

Summer teams served in Romania and Guatemala, a youth group from Chester Methodist Church took its first trip with H4KI, and a July team served at Vacation Bible School in Mexico.

PARTNERS IN 2026

Churches
St. Matthew's Lutheran Church, Lord of Life Lutheran, Chester Methodist Church

Schools and colleges we are building partnerships with
Arizona State University, Grand Canyon University, St. John Fisher College, Scholars Academy

Field and ministry partners
We Ignite Nations, Feed My Starving Children

And family foundation partners and supporter families, who are not named here.

SUPPORTERS, TEAMS AND CHURCHES

What you did this year

Here is what supporters like you made happen, from Walk 4 Water to Food 4 Kids.

ACCOUNTABILITY

An honest look at the year

What did not go to plan

Summer travel to Uganda

WHAT HAPPENED

By late May, after prayerful consideration, we and a partner high school had decided to postpone the June Uganda trip. The July Uganda trip was later canceled because of Ebola and insurance restrictions. Summer trips to Romania, Guatemala and Mexico went ahead.

> "This decision was not made quickly or lightly"
>
> Mission trips team, H4KI board packet, May 2026

WHAT CHANGED

Our third quarter update reported that Uganda had been declared Ebola free and that a team was set to return in November. The Executive Director's September update added that the team would spend time with Uganda staff, sponsored children, schools and projects.

Paying for university

WHAT HAPPENED

As our Child Sponsorship team put it:

> "Funding higher education is an ongoing challenge"
>
> Child Sponsorship team, H4KI board packet, May 2026

WHAT CHANGED

Our Sponsorship Manager in Uganda obtained a discount for some university students. The Higher Education campaign story is on pages 14 and 15.

Above: Local leaders at a groundbreaking, Uganda, April 2026. Photo: H4KI trip team.

Our plans for 2026, and where they stand

Last December, our teams and leadership shared plans for 2026 with the board. Here is where several of them stand.

PLAN FOR 2026	WHERE IT STANDS	STATUS
Finish licensing and registering the center and its equipment	The center has its license to operate; no update yet on equipment registration	In progress
Open the center to the public	Opened April 10 and 11 with a two day medical camp	Done
Complete baseline health exams for all sponsored children	Every student at one of our primary schools has had a checkup; screenings at other schools are planned for 2027 and beyond	Partly done
Explore partnerships with companies for the center	A corporate sponsorship program is being built, with materials that include the center; separately, the center is partnering with hospitals and clinics in the area	In progress
Move to a new supporter database	Our third quarter update expected it to be finalized by October 1	In progress
Begin training 33 pastors with our pastor training partner	No update yet on whether training has begun; the Ministry Training Center is under construction	No update yet
Run a major sponsorship campaign in January and February	In May, the campaign was listed among planned communications, with testimonials and video; no update yet on its launch or results	No update yet

Looking ahead to 2027

○ Weekly health education on the radio

The center's radio health talks continue, and a weekly program is among its plans for 2027 and beyond.

○ Registration as an official immunization site

The center plans to pursue government registration.

○ A global health learning trip being explored

We met with Arizona State University faculty about a possible learning trip in summer 2027.

○ A Uganda trip for college students and faculty

A dedicated 2027 trip has been designed for them.

○ Help for students after they leave our schools

We are researching bridge programs to serve them better.

Governance

In December 2025, the board was seeking additional members. Its next meeting is December 4, 2026. We updated our Candid (GuideStar) profile this year.

MORE ONLINE

Every plan and where it stands, and how we count

h4ki.org/ir26-honest

Safeguarding

Most Uganda staff who work directly with children received trauma and abuse training through a partner, using a curriculum built for Africa. In their 2026 plans, our mission trips staff set out to complete a crisis plan and to keep improving the information team members receive for every trip. We never name children in this report, and we never link a child's photo to their school or to any health need.

How we count

This year's funded and drilled well counts come from different reports and are shown separately. Patient counts are approximate. Walk 4 Water's $115,700 is the amount raised before event costs. Team counts are as of May 28; the children in sponsorship count is pending. Water functionality rates are not yet reported. Finance is interim and unaudited.

Sources: H4KI board packet, May 2026; H4KI board update, third quarter 2026; Executive Director's update to the board, September 2026.

STEWARDSHIP

$4,028,186 given in 2026 so far[1]

That is $590,664 more than at the same point in 2025, as of our third quarter 2026 board update.

August 2026: the highest giving month in H4KI history, about $976,000

Source: Executive Director's update to the board, September 2026 (pending Finance confirmation).

One day in August: more than $536,000, the largest single day of giving on record

Source: Executive Director's update to the board, September 2026 (pending Finance confirmation).

The first Founder's Day: about $66,000 for the Eggum Family Medical Center

Source: H4KI board update, third quarter 2026.

The tables on the facing page come from H4KI's internal books for the four months ended April 30, 2026. They are interim and unaudited, and final 2026 statements will replace them. From January to April, $1,284,205 was given for specific purposes such as projects, wells and mission trips, and $649,083 was recorded as unrestricted in our books, a category that includes child sponsorship.[2] Program spending included $262,766 given in 2025 for specific purposes and released to fund that work in 2026.

This content is for informational purposes only and does not constitute legal or financial advice. Consult a qualified professional.

FINANCIAL SUMMARY

Contributions and program spending both ran above budget from January to April; management, administrative and fundraising costs ran below it. All figures are interim and unaudited.

Results for January to April 2026 (interim, unaudited)[2][3]

LINE	BUDGET	ACTUAL	DIFFERENCE
Contributions	$1,704,090	$1,933,287	$229,197 over
Program expenses	$1,004,153	$1,238,065	$233,913 over
Management and administrative	$664,852	$610,027	$54,824 under
Fundraising	$26,150	$11,509	$14,641 under
Total expenses	$1,695,154	$1,859,601	$164,447 over
Income minus expenses, before other income	$8,936	$73,686	$64,750 over
Other income, net	$28,488	$16,006	$12,482 under
Net income[4]	**$37,425**	**$89,692**	**$52,268 over**

Same four months in 2025: a net loss of $191,460.

These lines come from our internal books; final statements may group costs differently. We will publish the share of spending that goes to programs once our 2026 statements are final.

Balance sheet at April 30, 2026, compared with a year earlier (interim, unaudited)[3]

LINE	2025	2026	CHANGE
Total assets	$1,555,115	$1,809,365	up 16 percent
Cash and savings	$710,597	$875,281	up 23 percent
Net assets	$1,350,564	$1,584,533	up 17 percent

Key metrics

Long term funds held at the Arizona Community Foundation, March 31, 2026, not including a separate reserve fund (interim, unaudited)	$691,463
Restricted gifts from 2025 released for use in 2026 (January to April, interim, unaudited)	$262,766
In kind contributions, January to April (interim, unaudited)	$10,347
Program expense ratio	**Pending:** final 2026 statements

1. The cutoff date for the 2026 giving figures is being confirmed with Finance.
2. Amounts are rounded to whole dollars, so some figures may not add exactly.
3. Interim figures come from H4KI's internal books for January to April 2026 and its balance sheet at April 30, 2026. They are unaudited.
4. Net income includes $16,006 of net other income.
