About this report

2026 Impact Report

New Ground is this year's theme. The year a medical center opened, two buildings broke ground, and the work put down deeper roots.

Hope 4 Kids International prepared this report for its Board of Directors and partners from the May 2026 board packet, the third quarter 2026 board update and the Executive Director's September 2026 update. Program figures as reported in H4KI's May 2026 board packet and third quarter 2026 board update; giving as of that third quarter update. Interim, unaudited finance through April 30, 2026, and March 31, 2026 for long term funds held at the Arizona Community Foundation.

How to read this report

- Every figure names its report in the sources line at the foot of each spread.
- **Pending** marks a figure that is still being confirmed, such as a count that waits on the database move.
- **Interim, unaudited** marks finance figures from internal statements through April; final 2026 statements will replace them.
- Children are never named, and no caption pairs a child's face with a school name and a health condition.

Our Four Pillars

Dignity Health Joy Love

Hope 4 Kids International works with partners to restore dignity, health, joy and love to children living in poverty.

Web edition with the full finance tables:
h4ki.org/ir26

Young girl smiling at the camera in a bright new handmade dress while a team member adjusts the shoulder tie; other children in new dresses nearby under the pavilion. Mexico, January 2026.

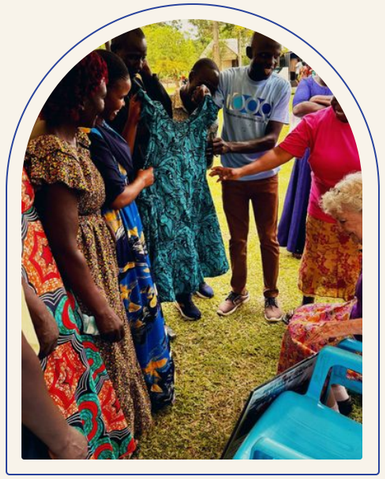

A team member paints a girl's cheek at an outdoor kids' activity day. Nepal, March 2026.

A visiting team member sits on a low ledge beside an orange wall, sharing a small activity with a circle of smiling children under a big sky. Uganda, April 2026.

From the Executive Director

New ground, and deep roots

This year I began serving as Executive Director, and I do not take the responsibility lightly. God has led Hope 4 Kids International faithfully since 1973, and I am grateful to steward that mission with the 20 years of experience He used to prepare me. Thank you for the support, wisdom and encouragement you have given me through this leadership transition.

Our focus this season has been partnerships and growth that lasts, especially in Child Sponsorship and the annual operating funds of the Eggum Family Medical Center. In April the center opened to the community with a two day medical camp that served about 350 patients. It holds its official license to operate, runs an electronic medical record system, and has an operating model that includes a small part of each Uganda sponsorship.

There is much to celebrate. August was the highest giving month in our history, with $976K received, including our largest single day of giving ever, more than $536,000. Our first Founder's Day raised about $66,000 for the medical center. We are in the final stage of our move to a new supporter database, and Apple Pay is now a way to give.

There were hard moments too. We had to cancel our summer trips to Uganda, and our hearts have been heavy for several ministry partners around the world. Our partnerships are about so much more than buildings. They are relationships built over many years, and we keep our friends, their families and the communities they serve close in prayer.

Uganda is now Ebola free, and we are grateful to be moving forward with our November trip. Our team is eager to return to our Uganda staff, sponsored children, schools and projects. Across H4KI we are strengthening programs and relationships so we can serve more children and communities well in the years ahead.

Thank you for all you do for the children and families we serve.

Love well,

Angie Simon

Executive Director

"*I will send victory from the sky like rain; the earth will open to receive it and will blossom with freedom and justice. I, the Lord, will make this happen.*" Isaiah 45:8

Photo: Women in bright print dresses gather under a canopy, laughing as a new dress is held up. Uganda, April 2026.

From the Founder and President

Fulfilling the original mission

Since 1973 the mission has been the same: restoring hope to kids and families around the world. This year that mission broke ground in Uganda, in the plainest sense. We broke ground on a Ministry Training Center, and with our pastor training partner we are preparing to equip 33 pastors. Training ministers fulfills our original mission.

I told the board last December that 2026 could be our best year yet. The Eggum Family Medical Center is open, and on our first Founder's Day supporters gave about $66,000 toward keeping it open.

This spring I had 4 speaking engagements, including preaching at my home church. Thank you for walking with us.

With gratitude,

Tom Eggum

Founder and President

2026 Milestones

How the year unfolded

Ten moments in order, then the milestones the reports do not date. Months for the trips come from the trip photos where the reports give none.

Jan

The year's first team, in Mexico

A January team served alongside our partners in Mexico, the first of the year's trips. Planning for a full summer of travel was already underway.

Mar

World Water Day, met and matched

$109,563 funded 10 wells for villages we serve. In Nepal the second phase of a partner primary school was dedicated, and 150 water filtration systems arrived with the March team.

Apr

The medical center opens

The Eggum Family Medical Center opened to the community with a two day camp for about 350 patients on April 10 and 11; it holds its official license to operate. A Sesera outreach with the April team served about 175 more. Supporters funded phase 3 of the Nepal school.

May

A first board meeting, two teams, hundreds of walkers

The Executive Director's first board meeting in the role. Teams served in Guatemala and Romania. By the end of May, 753 people had walked in 6 Walk 4 Water events.

Jun

A hard decision

We and our partners postponed the June Uganda trip. Summer trips to Romania, Guatemala and Mexico were set to go ahead.

Jul

Uganda canceled, Mexico served

The July Uganda trip was canceled because of Ebola and insurance restrictions. A team led Vacation Bible School in Mexico, and the Brandom class of 87 was set to graduate.

Aug

The highest giving month in our history

$976K given, including more than $536,000 in a single day. The first Founder's Day, planned for August 22 in the May packet, raised about $66,000 for the medical center. A team served in Namibia.

Sep

Cambodia and the Philippines

Our first team to Cambodia was set to travel with the Philippines team, a combined trip meant to strengthen relationships and explore how we can keep growing our impact in that part of the world.

Nov

Back to Uganda

Our third quarter update reports that Uganda has been declared Ebola free and the November trip is set to depart. The Executive Director's September update adds that the team is eager to spend time with our Uganda staff, sponsored children, schools and projects.

Dec

Year end board meeting

December 4, 2026. Final 2026 figures will replace the interim numbers in this report.

Also in 2026, undated in the reports

- Ground broken on a Ministry Training Center and on a new classroom block at a partner primary school in Kasolo
- Early in 2026, one evening event raised more than $100,000 for Food 4 Kids
- 2.5 acres added to the Uganda campus
- An official license to operate and an electronic medical record system at the medical center
- The Automotive Mechanics program at Brandom Vocational Skills Center fully funded
- A new classroom block completed at an Adopt A Village school
- A large scale water project underway at a girls' secondary school in eastern Uganda
- A first trip with a church youth group
- 25 new Ambassadors, and Apple Pay as a new way to give

Sources: H4KI board packet, May 2026; Executive Director's update to the board, September 2026 (pending sign off); H4KI board update, third quarter 2026.

Where We Serve

Eight countries, one home

8

program countries, and one home office in Phoenix

These are the 8 countries where H4KI runs programs alongside local partners, with our home office in Phoenix. Each note shares one line of recent work; the Cambodia and Philippines photos are from the 2025 trips. Dashed arcs run from the Phoenix home office to each program country; pins are placed by country, not by project site.

Uganda

The Eggum Family Medical Center opened in April; ground broke on a Ministry Training Center and new classrooms.

Next: The November team returns; water for a school in Masindi
Uganda, April 2026.

Romania

Furniture and equipment went into the ASA Community Center, and the May team served alongside our partner.

Next: A sewing center and a leveled courtyard
Romania, May 2026.

Guatemala

The May team filled quickly, and Water 4 Kids International planned 75 filtration systems for the trip.

Next: Filters in homes; home repairs with the team
Guatemala, June 2026.

Namibia

Partner church gifts secured a soup kitchen's place in the power grid queue in Okombahe.

Next: A solar water heater at the Karibib boarding facility; farm improvements
Namibia, August 2026.

Nepal

Phase 2 of a partner primary school in Surkhet was dedicated in March, and phase 3 was funded in April.

Next: The next large scale water project
Nepal, March 2026.

Philippines

5 homes completed through Build a House (reported May 2026); the water program is relaunching.

Next: A roof over the nursery school's covered patio
Philippines, October 2025.

Mexico

A January team and a July Vacation Bible School team; the food box drive raised funds to feed 100 families.

Next: A new roof on the church
A local volunteer at the soccer camp. Mexico, July 2026.

Cambodia

Water 4 Kids International completed its 15th well there since the work began, and both local partners are adding child sponsorship.

Next: Child sponsorship begins
Cambodia, October 2025.

Sources: H4KI board packet, May 2026; H4KI internal direction.

Mission Teams

Serving Together

Amy Bista
VP of Child Development and International Teams

By May 28, the year counted 49 team members so far and 4 completed trips. The summer brought full teams and two hard decisions about Uganda.

49

team members so far in 2026, as of May 28

Above: A smiling H4KI team member in a Hope 4 Kids shirt is wrapped in a group hug by four young girls at a partner kids program room. Romania, May 2026.

A smiling trip team member walks down a dirt road hand in hand with three young children, with acacia trees and hills behind them. Namibia, August 2026.

4
trips completed by May 28

208
team members in 2025 on 13 trips

49%
of 2025 team members were traveling with us for the first time

22
team members under 18 in 2025, with 24 more under 30: the next generation of travelers

Demand keeps growing

The May Guatemala and July Uganda trips filled quickly, and for the first time we set up a waitlist. A new Teams administrator joined us in January. Our summer began with trips to Romania and Guatemala that went well, and we hosted our first trip with a church youth group. In July a team led Vacation Bible School in Mexico, and in August a team served in Namibia.

Three trip team members in aprons laugh together while chopping onions and potatoes for a community meal at a bright green outdoor kitchen. Namibia, August 2026.

Not everything went to plan

We and our partners made the joint decision to postpone the June Uganda trip after prayerful consideration. We have decades of experience navigating complex health and security situations in the field, and we have operated trips in Uganda during previous Ebola outbreaks. This situation required a different response. The July Uganda trip was later canceled because of Ebola and insurance restrictions. Our third quarter update reports that Uganda has been declared Ebola free, and the November trip is set to depart.

College partners

At a partner college, two pharmacy students on our Guatemala trip are developing a research project connected to their experience. We remain committed to our school partners for the long term, and we look forward to expanding partnerships with schools and youth groups.

> "This decision was not made quickly or lightly"
>
> Teams department, H4KI board packet, May 2026

What comes next

Planning for 2027 is already underway, with strong interest in July Uganda, a university student medical trip to Uganda and an April Dress a Girl trip.

A Crisis Plan for our teams.

Expanded partnerships with schools and youth groups.

Sources: H4KI board packet, May 2026; H4KI board update, third quarter 2026; Executive Director's update to the board, September 2026 (pending sign off).

Financial Stewardship

$4,028,186 given in 2026 so far

Teresa Griffin
Financial Director

That is $590,664 more than at the same point in 2025, as reported in our third quarter 2026 board update.

August 2026: the highest giving month in H4KI history, $976K

One day in August: more than $536,000, the largest single day of giving on record

The first Founder's Day: about $66,000 for the Eggum Family Medical Center

From the Financial Director

For the four months ending April 30, 2026, Hope 4 Kids International reported total contributions of $1,933,287 against budgeted contributions of $1,704,090, exceeding budget by about $229,197, or 13.5 percent. Total expenses were $1,859,601 against a budget of $1,695,154, a variance of about $164,447, or 9.7 percent; expenses include funding for programs with contributions received in the last quarter of 2025. Net income was $89,692 against a budgeted surplus of $37,425, about $52,268 ahead of budget. Contribution income exceeded budget primarily because of strong support for restricted projects and sponsorship initiatives.

How to read these figures

These figures come from our internal books for the four months ended April 30, 2026. They are interim and unaudited, and final 2026 statements will replace them. From January to April, $1,284,205 was given for specific purposes such as projects, wells and mission trips. Program spending included $262,766 given in 2025 for specific purposes and released to fund that work in 2026. A program expense ratio is pending final 2026 statements.

> “God has been so good to us this quarter and we are humbled and grateful by His blessings!”
>
> H4KI leadership, board update, third quarter 2026

Child Sponsorship

New partners, checkups and what comes next

Amy Bista
VP of Child Development and International Teams

Our team is already interviewing and enrolling next year's baby class, the first nursery year, for our 3 primary schools in Uganda, while the current count of children in sponsorship is confirmed in the new database.

22

students without individual sponsors whose vocational costs one gift covered

Pending
Count being confirmed
children in sponsorship

166.5
volunteer hours for Child Sponsorship, January to April

$17,900
raised by late May for Romania Bible Summer Camp, a record for the second year running

17
children whose urgent medical needs a June and July campaign covered

New places, new partners

Both of our new local partners in Cambodia are adding child sponsorship. In Uganda we partnered with a partner organization to provide trauma and abuse training to most of our staff who work directly with children, using an Africa specific curriculum. On our trips we will challenge team members to take an envelope with three children who need sponsors, with a goal of 100 children a year.

Checkups and urgent needs

Our Health Services team completed preventative checkups for every student at one of our primary schools, and we are following up on the needs they found. In June and July a dedicated campaign raised $6,301 to cover all 17 children.

Paying for what comes next

Funding higher education is an ongoing challenge. This year a generous gift covered vocational costs for 22 students who did not have individual sponsors; we are deeply grateful for this life-changing gift. The Higher Education campaign has raised $28,902 so far, covering more than the first year of university for five students, and our Sponsorship Manager in Uganda obtained a discount for some of our university students. The team also spent many hours training and planning for the database move, and is improving processes in Uganda so parents are better informed and students report test results quickly.

> “we are deeply grateful for this life-changing gift”
>
> Child Sponsorship team, H4KI board packet, May 2026

$39 a month sponsors a child.

What comes next

- Child sponsorship in Cambodia with both local partners.
- Next year's baby class at all three primary schools.
- An envelope with three children who need sponsors on every trip.

Education

Classrooms, trades and the years after

Amy Bista
VP of Child Development and International Teams

A new classroom block is complete at Watson Primary School, and the class of 87 at Brandom Vocational Skills Center was set to graduate in July.

87
students completed vocational training in fall 2025

Above: Inside a vocational classroom, a trainee in a light blue uniform styles a seated client's hair beneath a row of salon hair dryers; stacked blue and pink chairs and a checkerboard floor fill the room. Uganda, April 2026. The classroom's location is not recorded.

22
students without individual sponsors given vocational funding

3
classrooms under construction at Musana Primary School in Kasolo

Fully funded
the new Automotive Mechanics program at Brandom Vocational Skills Center

3
classrooms added by the second phase of Saraswati Basic School in Nepal

Watson Primary School

In our Adopt A Village community at Watson, we completed a new classroom block, and the school is preparing to break ground on 3 latrines, pavers and a library and administration block. The school's coffee and banana cash crops are thriving.

Across our schools

All students at one of our primary schools passed their P7 (final year of primary) exam, and all students at the secondary school on our campus passed their S4 (fourth year of secondary) exam. We welcomed a new Education Manager in Uganda, and an Education Committee provides leadership and oversight during the Education Director transition. Leadership is actively exploring new ways to serve our teachers.

Brandom Vocational Skills Center

87 students completed their course of study last fall and were set to graduate in July. The new Automotive Mechanics program is fully funded, and we engaged a consultant to create its plan. We are assessing and benchmarking the next vocational program, including the possibility of accepting paying students. Many of our students have gone on to higher education, trade and nursing programs, and we are researching bridge programs to better serve students after they leave our schools.

Nepal

With our partner we dedicated the second phase of Saraswati Basic School in Surkhet in March, adding 3 classrooms for elementary age students. Supporters funded phase 3, which covers finishes, furniture and equipment, in April.

> "recognizing that strong educators are the foundation of lasting transformation"
>
> Child Sponsorship team, Education updates, H4KI board packet, May 2026

What comes next

- Latrines, pavers and a library and administration block at Watson Primary School.
- The Automotive Mechanics launch and the next vocational program.
- Bridge programs for students after they leave our schools.

Health Services

Life-Saving Care

Josh Pfeiffer
Director of Health Services

The Eggum Family Medical Center opened to the community with a two day camp for about 350 patients, holds its official license to operate, and is building the systems to serve for the long term.

About

175

patients at the Sesera outreach with the April team

About
350
patients at the opening camp, April 10 and 11

UGX 4,000,000
in Ugandan shillings (about $1,150) generated in the center's first weeks

$40,000
a year for operations from a small part of each Uganda sponsorship

508
patients at 2025 outreaches in the Philippines, with more than 273 seen in Guatemala

Staffing and systems

We hired an additional lab technician and a full time radiographer to lead X ray and ultrasound services, and we are recruiting a part time medical officer and clinical officer. With the Projects team we installed fans throughout the center, extended the laboratory counters, built a storage shed, completed pavers to the restrooms and put up a road sign for community visibility. We purchased an immunoassay analyzer to run more tests in house, a water bath for blood bank requirements and a phototherapy bed for newborn referrals. We installed surge protection and battery backups, and we launched an electronic medical record system in place of paper records.

Outdoor medical clinic intake at a wooden table. Guatemala, May 2026.

Opening and outreach

We opened to the community on April 10 and 11, and the center holds its official license to operate; the next spread tells the story of that weekend. We completed health screenings for all the children at one of our primary schools and held a medical outreach in Sesera with the April team, serving about 175 patients. Radio health talks continue to reach communities across eastern Uganda, and we are partnering with hospitals and clinics in the area.

Built to last

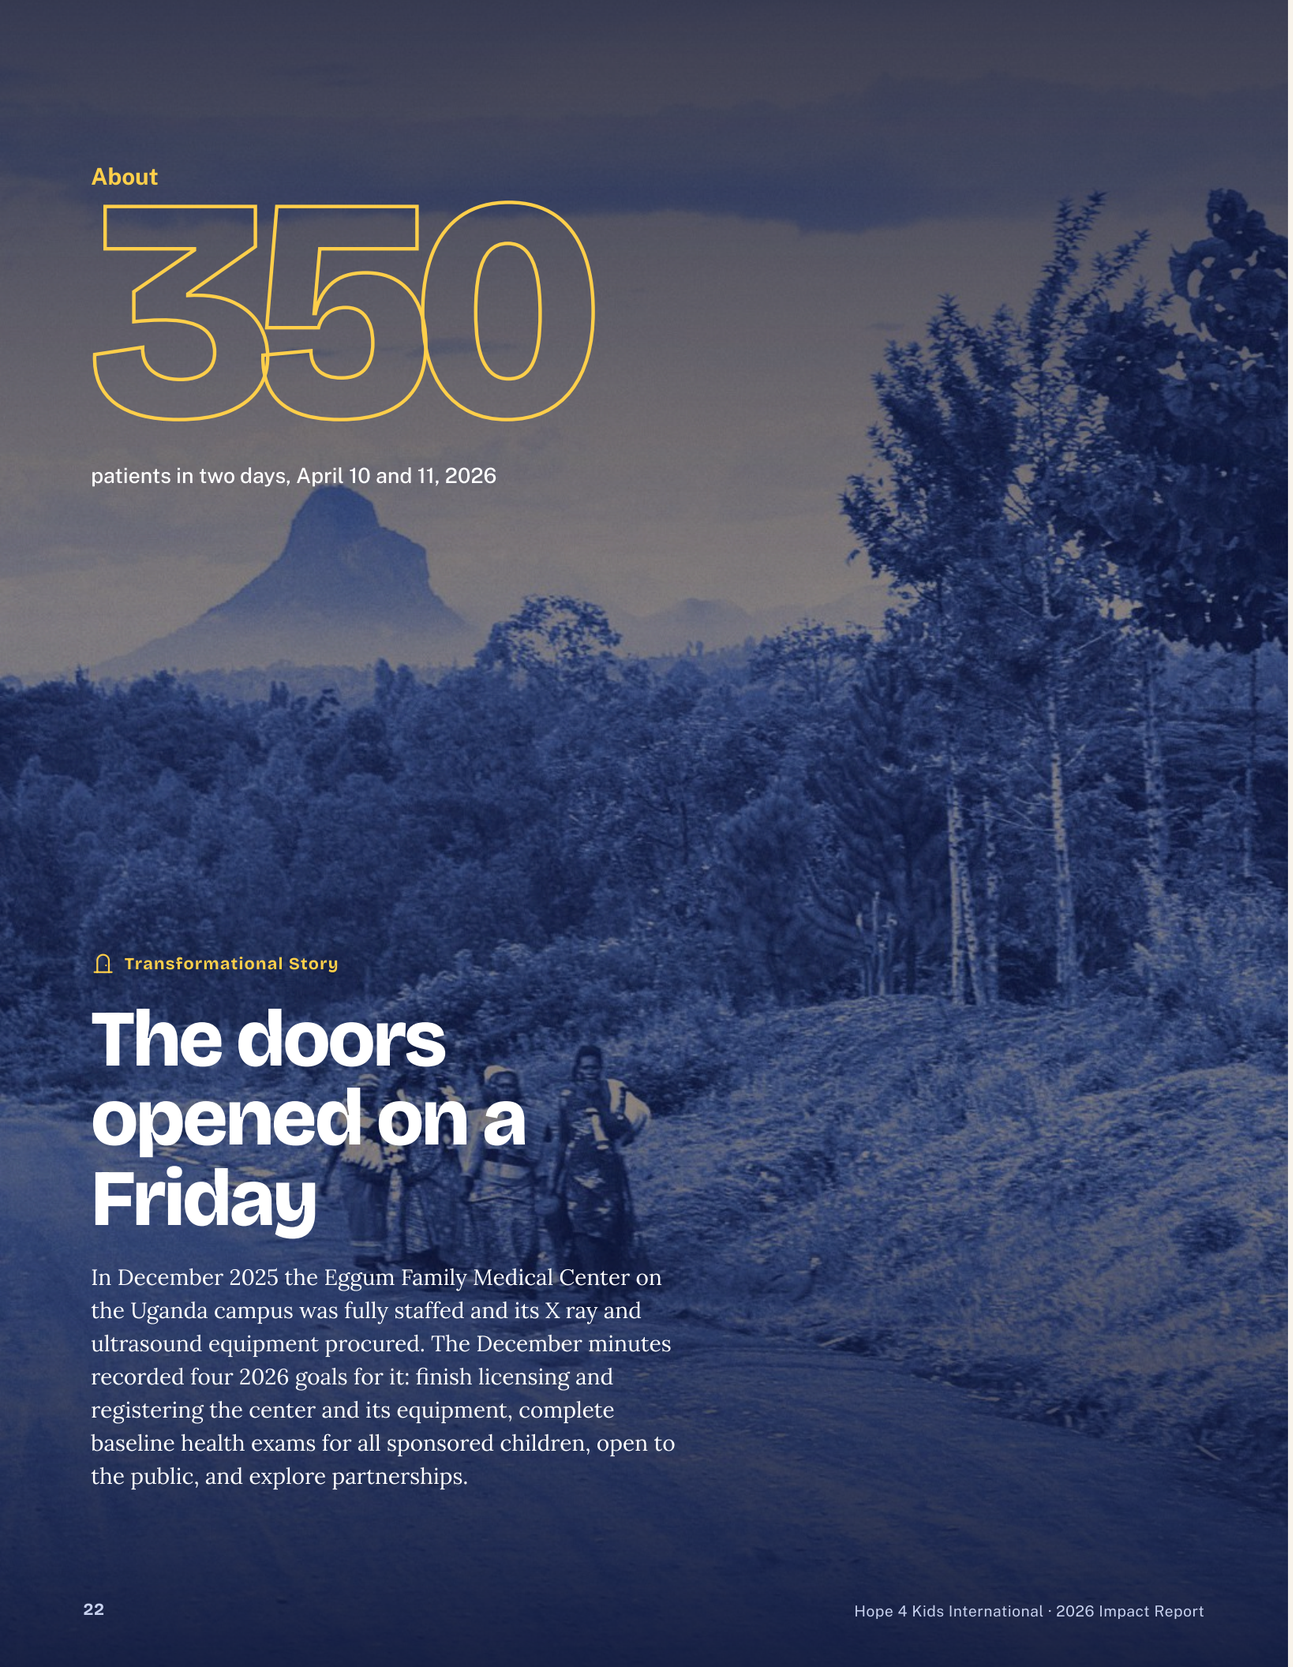

A small part of each Uganda sponsorship now supports the center's operations, about $40,000 a year, and the first Founder's Day raised about $66,000 for operations. The center generated about UGX 4,000,000 (about $1,150) in its first weeks.

> "Moving from paper records to an electronic medical record (EMR) system will transform how we care for patients."
>
> Medical team, H4KI board packet, May 2026

What comes next

- A weekly health education radio program.
- Registration as an official immunization site.
- Screenings for sponsored children at other schools, stronger referral partnerships, and expanded staffing and specialty services.

Sources: H4KI board packet, May 2026; H4KI board update, third quarter 2026; Executive Director's update to the board, September 2026 (pending sign off).

About

350

patients in two days, April 10 and 11, 2026

Transformational Story

The doors opened on a Friday

In December 2025 the Eggum Family Medical Center on the Uganda campus was fully staffed and its X ray and ultrasound equipment procured. The December minutes recorded four 2026 goals for it: finish licensing and registering the center and its equipment, complete baseline health exams for all sponsored children, open to the public, and explore partnerships.

On Friday, April 10, and Saturday, April 11, the center opened to the community with a two day medical camp. About 350 patients came through the doors in those two days. The center also holds its official license to operate. The same month the team held an outreach in Sesera with the April trip team and served about 175 more.

Opening the doors was one task. Keeping them open is a different one. The team launched an electronic medical record system to replace paper records, so that patient history, inventory and finances are tracked and no child's follow up is missed. It hired an additional lab technician and a full time radiographer, and with the Projects team fitted the building out for daily use. The Health Services spread lists the equipment.

The money to keep the doors open is being built the same way, one source at a time. Hope 4 Kids International adjusted its program allocations so a small part of each Uganda sponsorship supports checkups, which resulted in about $40,000 a year for operations. The first Founder's Day raised about $66,000 for the center. A hospital donated supplies, and by May a campaign for operating needs had raised its first gifts. In its first weeks the center generated about UGX 4,000,000 (about $1,150).

The center is also becoming part of its neighborhood. A borehole now serves the villages around the campus, with an invitation to local leaders to send sick community members to the center. A secondary school a few miles away received a large scale water project, and the team is building that relationship so its students come for care. Radio health talks carry the center's name across eastern Uganda, and partnerships with hospitals and clinics in the area are taking shape.

Next come a weekly health education radio program, registration as an official immunization site, health screenings for sponsored children at other schools, and more staff and specialty services. The doors opened on a Friday. The work of keeping them open has only begun.

Water 4 Kids International

Clean, Safe Water

Laura Mills
Water 4 Kids International Director

89 wells have been funded so far in 2026, and drilling ran ahead of last year through May.

89
wells funded so far in 2026

Above: Women in traditional woven dress assemble and carry stacks of white bucket water filters across a dirt courtyard during a filter distribution, with team members helping in the background. Guatemala, June 2026.

A smiling man sits on a red motorbike on a red dirt road with a yellow jerry can strapped to the back, buildings and fields behind him. Uganda, April 2026.

44
wells drilled by May 19, ahead of 31 by the same point in 2025

10
wells funded by World Water Day, which raised $109,563

11
wells funded by 6 Walk 4 Water events, January through May

1,397
wells made possible since the very first one[1]

Wells

By May 19 we had drilled 44 wells for the year, ahead of the 31 drilled by the same point in 2025. For World Water Day our goal was 5 wells at $52,500; a generous match covered 5 more, and the campaign raised $109,563, funding 10 wells for villages we serve.

A man in a blue checked shirt stands with his back to the camera at a small blue hand pump on a concrete pad in a green field; two visitors stand farther back. Cambodia, October 2025.

Uganda

A large scale water project is underway at a large girls' secondary school in eastern Uganda. We supported the villages around the campus with a borehole, and we assessed a school in Masindi serving children with disabilities as a future project site. New funding is supporting deep water wells in Uganda. On the campus itself, work continues on wastewater infrastructure.

Beyond Uganda

We completed our 15th well in Cambodia since the work there began, with a local partner. In Nepal we brought 150 water filtration systems on the March trip as we start our next large scale water project there. In the Philippines the water program is relaunching: a deep well site has been identified and fundraising is underway. For Guatemala we planned 75 filtration systems for the 2026 trip.

Walk 4 Water

From January through May, 6 events drew 753 participants, raised $115,700 gross and funded 11 wells. One community walk brought in 3 wells, and another community walk raised funds for five more (date not reported). We convened walk leaders to share best practices and are redesigning the Event Guide to lower the barriers for first time hosts.

An honest look

Through May 19 our finances figure was $467,803, compared with $518,909 for the same window in 2025. Our May board page does not explain the difference, and we are confirming what the figure measures. In the interim, unaudited books, Well Projects contributions were $425,107 against a $433,333 budget for January to April.

1. Cumulative; Water 4 Kids International to confirm the definition and the as of date.

What comes next

- Water for the girls' secondary school and the school in Masindi.
- A deep well in the Philippines and the next large scale project in Nepal.
- New Walk 4 Water hosts in Salt Lake City and Destin, and a redesigned Event Guide.

Global Engagement

Churches, campuses, companies and Ambassadors

25

new Ambassadors, each challenged to complete a mission

Jenny Herzog
VP of Global Engagement

Our newest department launched this year to build sustainable growth through relationships with churches, universities, H4KI Ambassadors, corporate partners and supporters.

17
online fundraising campaigns for wells, buildings and school operations

61
former team members answered a survey on what holds them back from sharing their experience

1,500+
essential items collected by one community drive

Corporate partners and Ambassadors

We are building a structured Corporate Sponsorship program with defined tiers aligned to our vocational, medical, Food 4 Kids and Water 4 Kids International programs. The Ambassador program added 25 new members and changed format to challenge Ambassadors to complete a mission that spreads the word about important campaigns. We are developing the Difference Maker Kit, a digital toolkit of social media assets, sponsorship profiles and storytelling tools, and we ordered luggage tags, wristbands and stickers to mobilize team members and Ambassadors.

Norterra Walk 4 Water: two walkers in event shirts raise their joined hands in celebration on a neighborhood street. USA, March 2026.

Schools and colleges

We are developing partnerships with 4 schools and colleges. We met with a university's health faculty about a structured global health learning trip in summer 2027 and designed a dedicated 2027 Uganda trip for college students and faculty. We toured a second campus to build faculty relationships and represented H4KI at two university service and networking events.

Campaigns

World Youth Skills Day shared stories from Brandom Vocational Skills Center. Our Higher Education and Urgent Medical Needs campaigns are reported on the Child Sponsorship spread. We created 17 online fundraising campaigns for wells, buildings and school operations. A community drive collected 1,500+ essential items, and a supporter's story about finding purpose on an H4KI trip was scheduled for a national magazine in June.

Walk 4 Water and speaking

Walk 4 Water figures are on the Water 4 Kids International spread; we are exploring new hosts in Salt Lake City and Destin. Our Founder and President delivered 4 speaking engagements in the second quarter, on top of 20 across H4KI in 2025.

> “equipping our ministry with the next generation of team members and supporters”
>
> Teams department, H4KI board packet, May 2026

What comes next

- Launch the Corporate Sponsorship program and secure first partners.
- Advance the university partnerships and promote the 2027 Uganda trip.
- Expand speaking reach, update the Walk 4 Water Event Guide and finish the Difference Maker Kit.

Projects

Ground broken, roofs raised

Kelley Pierce
VP of International Projects

Ground broke on a Ministry Training Center and on new classrooms, the campus grew by 2.5 acres, and homes, roofs and a soup kitchen moved forward in five more countries.

2.5
acres added to the Uganda campus

Above: At a groundbreaking, local leaders in hard hats and safety vests hold ceremonial trowels beside a visiting team member. Uganda, April 2026.

3
classroom block under construction at Musana Primary School in Kasolo

5
homes completed in the Philippines through Build a House (reported May 2026)

100
families the Mexico food box drive raised funds to feed

7
major buildings completed in 2025 across three countries, our biggest construction year

Uganda campus

We broke ground on a Ministry Training Center supporting our partnership with our pastor training partner; it is under construction, with a partner church contributing $50,000 toward it. We installed the Student Chapel's sound system and Bible training is underway there. A track and netball court is in progress, and a computer lab and drainage and water infrastructure for the secondary school are in planning. Work also continues on the campus wastewater infrastructure.

A new covered sports court on the H4KI campus in Uganda: a steel roof over a paved court with two basketball hoops, open fields behind. Uganda, April 2026.

Adopt A Village

At Watson Primary School we completed a new classroom block; the school is preparing to break ground on 3 latrines, pavers and a library administration block, and its coffee and banana cash crops are thriving. In Kasolo, the phase 2 dining shade at Musana Primary School is complete and a 3 classroom block is under construction. At Nyafumba we are designing a boarding section for P6 and P7 (the last two primary years) candidates.

Around the world

Philippines: 5 homes completed through Build a House and a new solar power system already reducing operating costs; we are raising funds for a roof over the nursery school's covered patio. Romania: furniture and equipment added to the ASA Community Center, with a sewing center and a leveled courtyard the focus of 2026 improvements. Namibia: partner church gifts secured a place in the power grid queue for a soup kitchen in Okombahe and completed hot water piping at a boarding facility. Projects planned for the summer included a solar water heater at the Karibib boarding facility and farm improvements (completion to be confirmed), and we are working with partners to establish a food shipment program. Mexico: the food box drive raised funds to feed 100 families and continue monthly soup kitchen support, the 30 year old church roof is fully funded, and a crisis relief campaign raised money for a church van. Nepal: phase 2 of Saraswati Basic School dedicated, phase 3 funded.

Food 4 Kids

One evening event raised more than $100,000 for the food program. Since 2015 we have provided 9,169,280 MannaPack meals (packed by Feed My Starving Children) to children around the world, as of December 2025, and we are working to ship a Feed My Starving Children container to the hostels.

> "This will cover 2 containers and monthly support for the next 2 years!"
>
> Projects team, H4KI board packet, May 2026

What comes next

- Finish the Ministry Training Center and the Musana classroom block.
- Latrines, pavers and a library block at Watson; a computer lab on the campus.
- A sewing center in Romania and a roof for the nursery school in the Philippines.

A record August, and the systems behind it

Mark Sorensen
Senior Development Director

Giving reached $4,028,186 so far this year, $590,664 ahead of the same point in 2025, with the highest month in our history in August.

$976K

given in August 2026, the highest month in H4KI history

$536,000+
given in a single day in August, the largest day of giving on record

About **60%**
email open rate

50,000+
people reached by H4KI content across all platforms

15
countries where H4KI podcasts reach listeners

Giving

Year to date giving is $4,028,186, $590,664 above the same point in 2025 as of our third quarter update. Growth this year included significant gifts toward water, the new Automotive Mechanics program and a school water project in Uganda, and our inaugural Founder's Day for the Eggum Family Medical Center.

A young girl and a toddler in traditional dress hold up colorful tissue paper cross suncatchers at a craft table, with a team member smiling beside them in a bright church fellowship hall. Guatemala, June 2026.

Reach

Our email open rate is about 60%. Content is reaching 50,000+ people across platforms, and 41% of our audience is aged 25 to 35, a growing next generation audience. Short form video is driving organic engagement, trip travelers share live content, podcasts reach listeners in 15 countries, and QR codes now sit on sponsor profiles and print materials.

Technology

Development is leading the move from our old supporter database to DonorPerfect (records) and Givecloud (online giving). Our third quarter update set October 1, 2026 as the target to finish. Apple Pay is now available as a way to give, and we updated our Candid (GuideStar) profile.

Planned gifts and the next generation

Partners are increasingly using gifts made directly from IRA accounts (qualified charitable distributions), appreciated stock, gifts through advised giving funds and estate gifts, and we promote FreeWill, an online will writing tool, for estate planning, with Make A Will Month in August. For Gen Z and Millennial supporters we are using messaging that leads with the cause, recurring and text to give options, a Next Gen Council and campus outreach.

Our team

IT and technology lead the database migration, the data work behind it, campaign automation and our adoption of AI tools. Marketing runs the campaigns, social media, video and Walk 4 Water promotion. Graphic design is building the Walk 4 Water visual program, a university partnership suite, a sponsor profile refresh and the year end giving print. The team: Travis Clark, Angelica Holguin, Florencey Bruemmer, David Richards, Ben Kubicek.

This content is for informational purposes only and does not constitute legal or financial advice. Consult a qualified professional.

What comes next

- The Holiday Gift Guide and year end campaigns.
- Finishing the database move.
- A Next Gen Council, and a Legacy Family Program for the adult children of long time partners.

Looking Ahead into 2027

What stands, what slipped, what comes next

H4KI Leadership

The Executive Director and the leadership team

In December 2025 the leadership team's goals for 2026 were recorded in the board minutes. Here is where each stands in the reports from May to September 2026, what did not go to plan, and what each department is working toward.

Goals we set in December 2025, and where they stand

GOAL	WHERE IT STANDS	STATUS
Finish licensing and registering the medical center and its equipment	License to operate received; equipment registration not reported	◐ **In progress**
Open the medical center to the public	Opened April 10 and 11 with a two day medical camp	● **Done**
Baseline health exams for all sponsored children	Screenings completed for every child at one of our primary schools; other schools planned for 2027 and beyond	◐ **In progress**
Explore partnerships for the medical center	Partnering with hospitals and clinics in the area	◐ **In progress**
Move to a new data system	Final stage of the move to DonorPerfect; expected to be finalized by October 1 per the third quarter update	◐ **In progress**
Develop corporate sponsorships	Flyers created and a tiered program being built; launch is a second half priority	◐ **In progress**
Begin training 33 pastors with our pastor training partner in May 2026	Ministry Training Center under construction; no 2026 report confirms the cohort has started	○ **Not reported yet**
Run a January and February sponsorship campaign	Planned in December under one theme; listed in May as upcoming messaging under a new theme, with testimonials and video; results not reported	○ **Not reported yet**
Add a full time maintenance position	Not mentioned in the 2026 reports	○ **Not reported yet**

What did not go to plan

Summer travel to Uganda

What happened

We and our partners postponed the June Uganda trip, and the July trip was later canceled because of Ebola and insurance restrictions. Summer trips to Romania, Guatemala and Mexico went ahead.

What changed

The third quarter update reports Uganda Ebola free; the November team is preparing to travel.

Water: more wells drilled, a lower finances figure

What happened

By May 19, 44 wells had been drilled, ahead of 31 by the same point in 2025. Over the same window the Water 4 Kids International finances figure was $467,803, compared with $518,909 in 2025.

What changed

The board page gives no reason for the difference. W4KI is confirming what the figure measures.

Paying for university

What happened

Funding higher education is an ongoing challenge, as the Child Sponsorship team reported in May.

What changed

The Higher Education campaign has raised $28,902 so far, and a university discount was negotiated in Uganda. The gap remains.

Looking ahead: the rest of 2026 and into 2027

What each department is working toward

Health Services

A weekly health education radio program; registration as an official immunization site; screenings at other schools; more staff and specialty services

Mission Teams

July Uganda, a university student medical trip to Uganda and an April Dress a Girl trip; a Crisis Plan

Education

The Automotive Mechanics launch; the next vocational program; bridge programs after our schools; new ways to serve teachers

Child Sponsorship

Sponsorship in Cambodia; next year's baby class; 100 children a year through Team Member Ambassadors

Water 4 Kids International

Water for the girls' secondary school and the Masindi school; a deep well in the Philippines; the next project in Nepal; new Walk 4 Water hosts

Global Engagement

Launch the Corporate Sponsorship program; advance the university partnerships; the Difference Maker Kit; a new Walk 4 Water Event Guide

Projects

Finish the Ministry Training Center and the Musana classrooms; Watson latrines and library block; a campus computer lab; a sewing center in Romania

Development

The Holiday Gift Guide and year end campaigns; finish the database move; a Next Gen Council and Legacy Family Program

Governance

The year end board meeting on December 4, 2026; the board has been seeking additional members since December 2025

Uganda, April 2026.

Board and governance

Hope 4 Kids International's Board of Directors serves as an advisory board; 10 members attended the December 2025 meeting. The Founder and President reports to the board, and the Executive Director reports to the Founder and President and leads 7 direct reports across 8 departments. An Education Committee provides oversight during the Education Director transition. The board is seeking additional members, and its year end meeting is December 4, 2026.

Angie Simon, Executive Director

Tom Eggum, Founder and President

Ken Jensen, Board Chair

Safeguarding

Most of the Uganda staff who work directly with children received trauma and abuse training using an Africa specific curriculum, through a partner organization. The Teams department is preparing a Crisis Plan. Children in this report are never named, and no caption pairs a child's face with a school name and a health condition.

How we count

Wells funded, drilled and sponsored are different counts and are never added; the 1,397 cumulative figure is being confirmed. Patient counts are approximate as reported. Walk 4 Water's $115,700 is gross. Team counts are as of May 28, 2026. Children in sponsorship is pending. Finance is interim and unaudited.

Sources: H4KI board packet, May 2026; H4KI board update, third quarter 2026; H4KI internal direction; Executive Director's update to the board, September 2026 (pending sign off).

♡ Because of You

Thank you

Because of you, a medical center opened its doors, crews broke ground, drillers reached water, filters traveled with the teams, and classrooms filled.

To the churches, schools and colleges, field and ministry partners, family foundation partners and supporter families who stood with H4KI in 2026: thank you. We name organizations here, never individuals.

Give

Toward clean water, the Eggum Family Medical Center or students' education.
